

# **R&D in Serbia**

## **Facts and Figures**

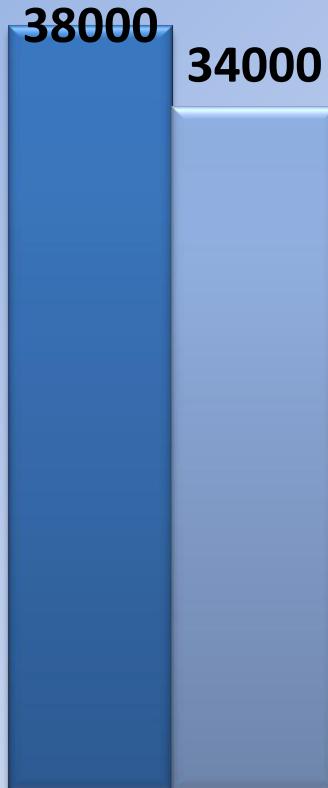

**Vera Dondur**  
**National Council for Science and Technological  
Development**

# Competitiveness Index 2010-11

- Research carried out in higher education has direct bearing on the formation of our students.
- The students will be the primary engine for transferring the knowledge to the wider society, either by job-shaping and entrepreneurship or as innovators within their chosen careers.

# Role and significance of doctoral education and training

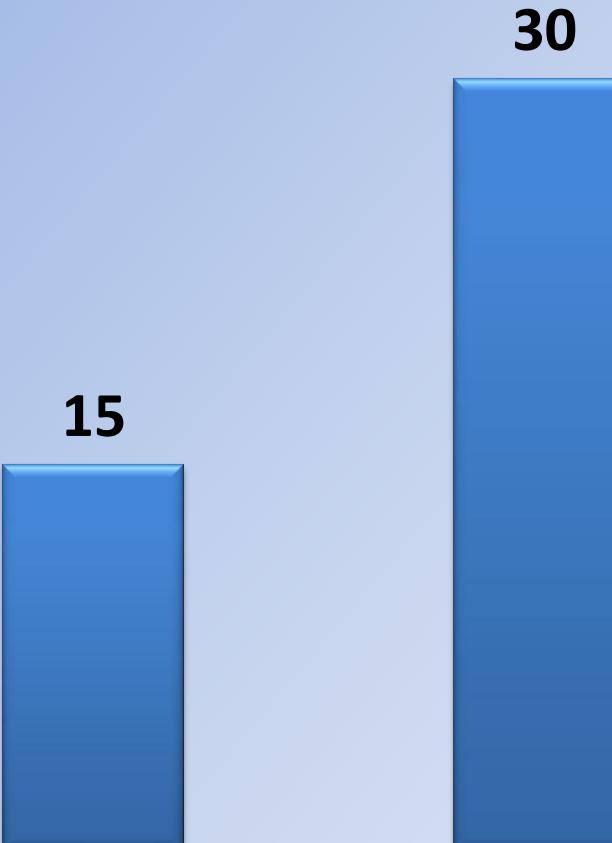

students per million  
head of population

# Role and significance of doctoral education and training

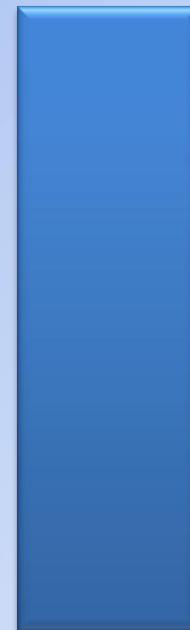

**PhD students per milion  
head of population**

1050

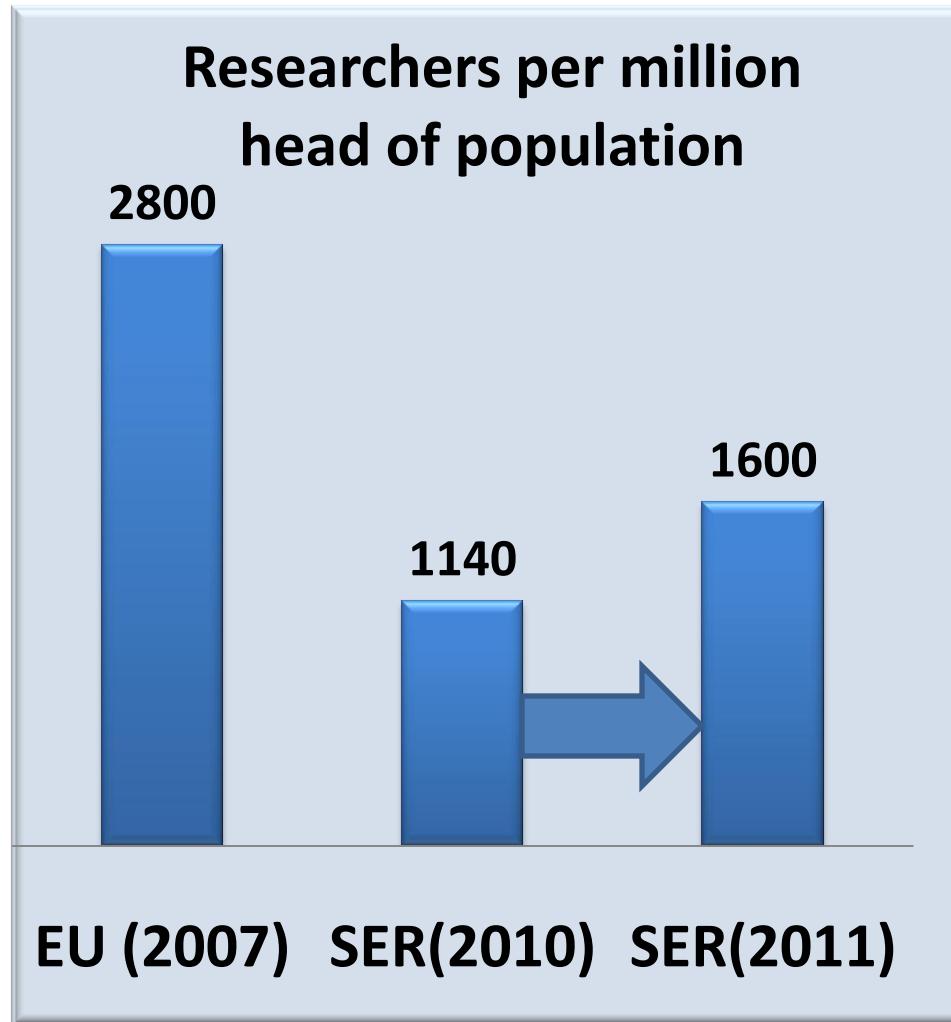

**Doctoral graduates per  
million head of population**

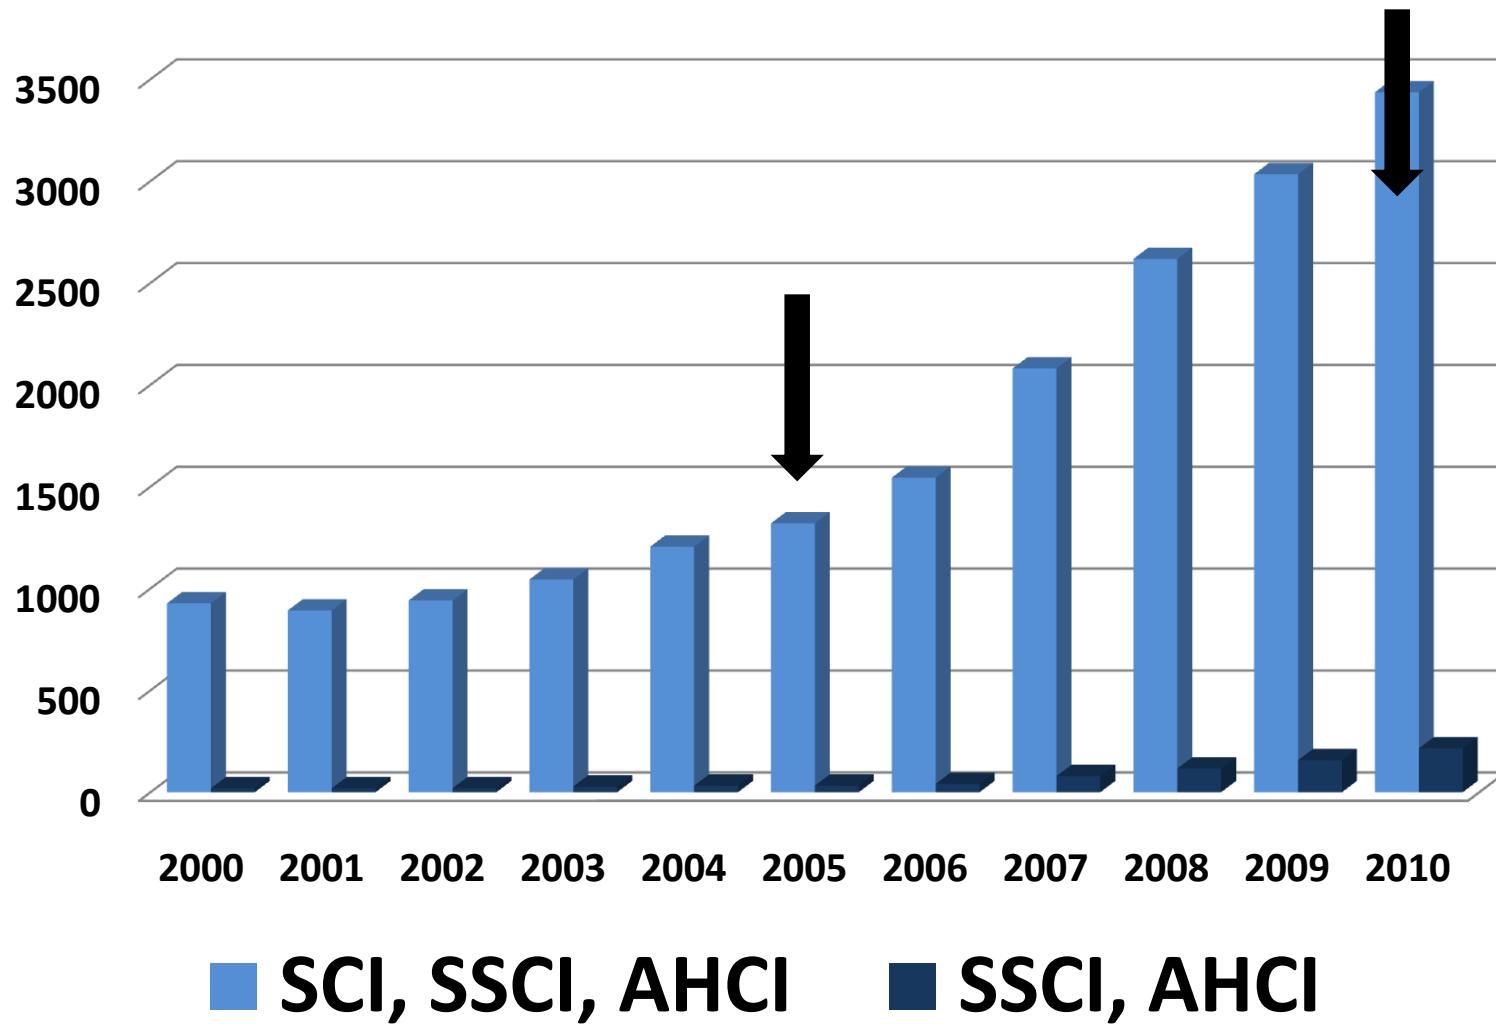

390

## **Role and significance of doctoral education and training**

The number of the papers published by Serbian researchers in internationally recognized journals between 2005 and 2010 shows significant increase.

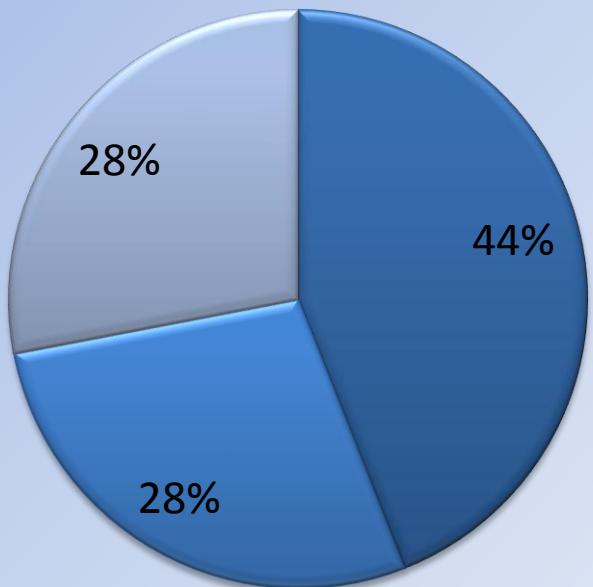

- Serbia has been an associated country within FP7 programme since 2007.
- The Strategy of Scientific and Technological Development of the Republic of Serbia 2010-2015 was developed to address the future needs of the country based on a set of observations at the time (2010).
- R&D in science, technology and engineering was seen as key to global economic growth.

## **The national priorities in the field of science and technology:**

- Biomedicine and human health
- New materials and nanosciences
- Environment protection and countering climate change
- Agriculture and food
- Energy and energy efficiency
- Information and communication technologies
- Improvement of decision making processes and affirmation of national identity

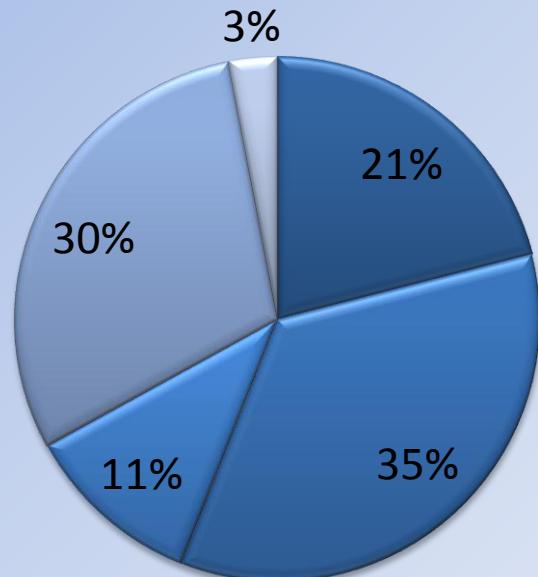

### **researchers (2010-2014)**

- Basic Sci.
- Tech.and Technol. Sci.
- Interdiscip. Sci

### **PhD students (2010)**

- Nat. Sci.
- Tech. And Technol. Sci.
- Med. Sci.
- Soc. Sci. And Hum.
- Art

**24 starting grants for young researchers**

# Founding for research

Serbia increased its R&D budget by 22% in 2011.

# **Investments:**

## **Capital Equipment for Research**

**Estimated value of equipment  
55x 10<sup>6</sup> EUR**

**Completion period June 2011-January 2012.**

# **Infrastructural Investments:**

- **Centres for the promotion of science, Belgrade, Svilajnac**
- **Nano Centre, Belgrade**
- **Stem cell centre , Kragujevac**
- **The main building University of Novi Sad**
- **Science and technology parks:  
Zvezdara, Kragujevac, Novi Sad, Niš**
- **Appartments for scientists:  
Belgrade, Kragujevac, Niš , Novi Sad**
